# WANTED ! SENIOR PYTHON DEVELOPER

## WHO WE ARE

**EarlyTracks** is a startup-size company that develops innovative solutions to improve **healthcare** data management. Now that we have strong roots in the Belgian market, we plan on developing and deploying new products on the international scale.

We work with a combination of modern technology solutions (such as **machine learning**, text mining, NLP, distributed storage, semantic technologies) and the everyday reality of our end users challenges.

Our office is located in **Brussels** (city center).

## ABOUT THE JOB

Once you join our team, you will be implicated in creating and developing new services for our customers. You will also help maintaining and improving our existing tools (internal or external). This job requires multitasking and a close collaboration with the whole team.

## WHO YOU ARE

- Minimum 5 years' experience as a developer/programmer
- Knowledge of the following languages and technologies is <u>required</u>:
  - ✔ **Python**
  - ✔ Git
  - ✔ **Linux**
- Knowledge of the following technologies is <u>a plus</u>: machine learning technologies (TensorFlow, Scikit-learn), Kubernetes, Elasticsearch, CouchDB, MongoDB, Data mining / Big databases, REST architecture, JavaScript
- Mastery of development good practice
- Up-to-date vision of the latest technologies and innovations
- Autonomy, pro-activity but also a good team spirit
- Good communicative skills in **English**
- An interest in healthcare and the medical field (with or without prior experience)

## WHAT'S IN IT

- Improve/Confirm your talent on **modern technologies**
- Develop your skills on a **wide set of tasks**
- Join a small company with a startup spirit
- Be part of our open, transparent, welcoming and **dynamic** team
- Have a **flexible work schedule**, with possible **homeworking** and a competitive salary

## INTERESTED?

If you want to know more about the job and our company, send an email with your CV to **jobs@earlytracks.com**. We will come back to you as soon as possible.
